

## **VX Series Repair Internet Connection Instructions**

1. Press the "\*" button (left of zero)
2. Select "Comm Server"
3. Select "Reprint" (purple button under icon of tools)
4. Select "Repair" (F4)
5. Press Green button when "successful"
6. Select "Trouble Shoot" (F3)
7. On completion of tests "Print" appears, press "Report" (purple button under the word "Print")
8. Last line of printed report should say "OK" followed by the time in milliseconds). If other than OK, call Dan at (970) 284-8078
9. Press "\*" twice
10. Select "Worldpay" (some machines say "Credit/Debit")

Note: I need to know if you are having to repair more than once a week. Thanks.
